This is a smaller and quiet residential building that is not part of a large housing complex — ideal for anyone seeking greater privacy.

Within walking distance, you will find full civic amenities as well as universities, making this property suitable not only for personal living but also as a very attractive investment opportunity.

ABOUT THE APARTMENT

The apartment is located on the top floor, meaning no neighbors above you. A major advantage is the smaller number of units in the building, ensuring a quieter living environment compared to larger residential projects developed in Košice. Parking in this location is convenient and directly available at the building.

Heating and cooling are provided by a heat pump system.

Since both the building and the apartment have been newly renovated and furnished, any potential defects are covered by warranty, providing additional security for the new owner.

A significant benefit is that the apartment is sold fully furnished. This means no additional investment is required, and the property can be rented out or occupied immediately.

- *Technical University of Košice – approx. 20 minutes on foot*
